

PLAYGROUND CLEAN-UP

FOR OUR ERASMUS PROJECT WE DECIDED TO
TAKE ACTION AGAINST LITTERING IN ST
MICHANS PARK. IT LOOKS PRETTY CLEAN
RIGHT?

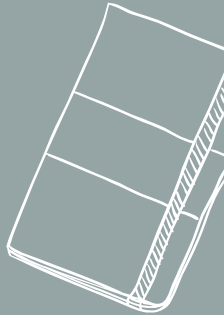

WRONG! WE
FOUND ALL THIS
LITTER IN ONLY
AN HOUR AND A
HALF!

HERE IS US PICKING UP THE RUBBISH

SOMETHING WEIRD WE
FOUND WAS A BOTTLE THAT
WAS TRYING TO
DECOMPOSE INTO THE
GRASS, IT TOOK US A
MINUTE TO PULL OUT.

AFTER TWO DAYS, WE WENT BACK TO THE PLAYGROUND TO SEE IF THE LITTER INCREASED OR STAYED THE SAME.

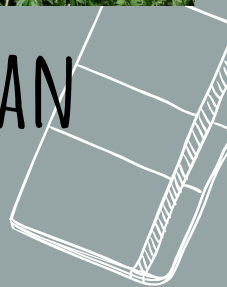

WE WERE RIGHT WHEN WE SAID IT WOULD INCREASE...

THE WORST BIT IS THAT THERE WAS A LOT MORE THAN THIS.

LITTERING FACTS

HOPEFULLY THIS WILL HELP YOU NOT LITTER

LITTERING HAS LOTS OF EFFECTS ON US AND ANIMALS. IT IS ESTIMATED THAT OVER ONE MILLION ANIMALS DIE EACH YEAR AFTER INGESTING, OR GETTING TRAPPED IN, IMPROPERLY DISCARDED RUBBISH.

FACT: 4.5 TRILLION CIGARETTES EACH YEAR ARE THROWN ON THE FLOOR, MAKING THEM THE MOST LITTERED ITEM IN THE WORLD.

SO BE PART OF THE SOLUTION
NOT THE POLLUTION LIKE US
PLEASE!

THE END
