

## Children Connecting for Change

### PARENT CONSENT FORM FOR YOUNG CHILDREN

Dear Parent/Carer

#### About the Erasmus+ CepNet Project

The **CEPNET Project** will work with children and teachers in primary school settings with the aim of introducing them to new approaches in relation to promoting empowerment and self-activation within the classroom.

As part of this project, the students will get a chance to carry out self-directed project based activities, looking at issues in their lives that connect them to the UN's sustainable development goals (SDGs). They will discuss and debate these issues and then carry out action research projects on topics that motivate them. They will then present their findings to a wide range of different audiences. This may include members of the school community, as well as members of the wider community.

The **CEPNET consortium** is committed to ensuring children's safe participation by reducing vulnerability and promoting online resilience and self-organisation.

We are asking for your permission so that your child can take part in the project.

#### Consent statement on photos/ video/ audio recordings

We are also asking for your permission to use photographs and videos/audio recordings as this can be one of the best ways of capturing children's voices. Please note that this material will not be broadcast or used for any purposes other than within the **CEPNET Project**. We also ask permission for the images to be published and for any image rights resulting from the publication to be relinquished.

The names of children, parents, staff, or location of the school will not be identified in any written reports of the project.

An information session will be organised for all parents/ carers before the project begins.

## Consent Statement

I give consent to include the views of myself and my child (ren) such as recordings (audio or visual), photographs, written material and records and other information which may be deemed eligible to be used as part of the children’s engagement in the **CEPNET Project**. I understand the information will be accessible by the **CEPNET Project** partners. I understand the information and materials produced may be used for supporting the project monitoring and evaluation, training, media promotion, showcasing practice or for conference purposes.

I agree to the participation of my child in the **CEPNET Project**.

I give permission for photographs/video/sound recordings of my child to be captured and used in printed and electronic media, including the internet, for teaching and research/dissemination purposes of the **CEPNET Project**
